

ArmD™ Fiber Cables

Single-fiber assemblies

Armadillo provides an extensive selection of patch cables, pig-tails, and high-power cables, precisely tailored to your unique application requirements. Our end-to-end control, spanning from preform manufacturing to the final product, enables us to deliver cables that meet the most stringent standards for quality and fiber optic properties.

Advantages

- Broad temperature tolerance
- Exceptional resistance to laser damage
- Special jackets available for high temperatures, high vacuum, and harsh chemicals
- Consistent core/cladding ratio throughout the entire fiber
- All-dielectric, non-magnetic design
- Sterilizable using ETO and other methods
- Biocompatible material
- Anti-reflective (AR) coating
- Availability in various lengths

Options

Available fibers	All fibers from our range
Connectors	SMA FC / PC ST and others upon customer request, including customized ferrules
Protection tubes	PVC PTFE Kevlar C-Flex Kevlar-reinforced PVC Metal Steel and others
